REFRAME™
METHOD

5 Steps to Simplify Enterprise Architecture with “Prolaborate”

1

"Best Practice Talk"
Ideas, concepts
and project plans

2

Simplify EA models
with Prolaborate

3

Simplify complexity
in your
organisation

Take Enterprise Architecture
to the next level?

Reduce complexity in your
company?

More transparent, more visual
and tangible for the whole
company?

In a "Best Practice Sharing
Talk" you get **the answers
you need.**

We **qualify validation rules and
thus reduce complexity** for (future)
agile organisations, focus on
**models of collaboration,
governance and workflows.**

We will show you
how to solve this task with **your
models using Prolaborate.**

5 Steps to Simplify Enterprise Architecture with “Prolaborate”

4

Agile organisation, automated and integrated

5

Make better decisions

Ready for Agile - the modelled agile organisation: your company goal?

Visualise actual and future business capabilities for better decisions in the company?

We show you **how to integrate EA and Prolaborate into the agile organisation.** In this way, you also **integrate and automate requirement management in the environment of ALM and PLM.**

We show you **how to "measure" your organisation,** which models you need to visualise to **set up a transparent assessment & decision-making matrix for strategic goals.**
