

Take the Subway for Digital Transformation.

What's the easiest way to get from A to B? This is a question we ask ourselves regularly in a variety of contexts. Crucial to a successful transformation from our baseline (A) to our target state (B) is an comprehensible route map and these 5 stages.

THE TRANSPARENT ORGANIZATION
creating transparency

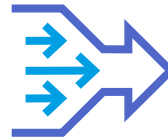

THE MEASURED ORGANIZATION
recognizing potential

THE AGILE ORGANIZATION
leveraging agility

THE VALIDATED ORGANIZATION
reducing complexity

THE PRACTICABLE ORGANIZATION
achieving goals

THE SUSTAINABLE ORGANIZATION
developing sustainability

Focus on the Essentials for an Agile Organization with Prolaborate.

With Prolaborate, you maximize the value of enterprise architecture, lay the groundwork for decisions, and get the fastest from A to B.

LEVERAGING AGILITY INTEGRATION AND AUTOMATION WITH PROLABORATE

The modeled, agile organization: Is this what you would like to achieve in your company? We show you how to integrate Enterprise Architect and Prolaborate into the agile organization. You will understand which change from ACTUAL to TARGET is necessary to achieve the goal of the agile organization.

YOUR CHALLENGE

How to provide changed information in an automated and aggregated way when changes occur? How can we move to an integrated way of working that has fewer tool breaks and is therefore less prone to errors?

YOUR BENEFIT

Faster and easier access to necessary information increases agility in the company. By integrating different tools and automation, information is available up to date.

OUR METHOD

2 steps for more agility

1. identify the potential of aggregation in Prolaborate
2. adaptation of Prolaborate views for the respective stakeholders

DURATION

OUR PROJECT VOLUME

Step 1: 5 days

Step 2: 5-10 days
